# Sony's Industrial microSD card for IP security camera

With its superior durability and unique function, Sony's Industrial microSD card is best option for industrial usage such as security camera.

## Longer Life Span

Sony's Industrial microSD card is using MLC NAND Flash Memory. As a result, Sony's Industrial microSD card can realize approximate 10 times longer\* life span than affordable consumer microSD card.

\* Based on Sony internal testing compared to affordable Consumer microSD card.

### Sony's Industrial microSD card

Approx. 10 times longer

### Affordable consumer microSD card

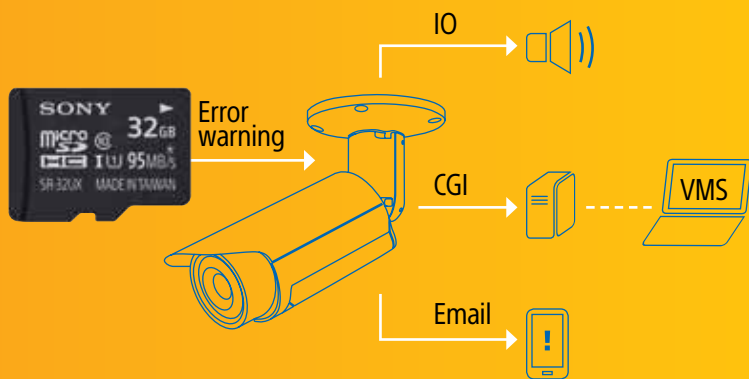

## Maintenance Information Notification

Flash memory cards have limited lifespan. If the card is used for a long period of time, at some point, it will experience errors and data won't be recorded. Sony's Industrial microSD card with Maintenance Notification safeguards against data loss and gives you timely alert when it's time to be replaced\*.

\* This function works with compatible IP security camera only.

### microSD card Maintenance Information Notification

Warning	Error Message Examples
Functioning normally	The SD card is inserted and there is enough lifespan remaining.
Replacement recommended	Has reached XX% of the SD card's lifespan
Has reached its lifetime	All the spare blocks have been consumed. The card is read-only.
Card not inserted	No SD card is inserted.
Lifetime notification unsupported	The inserted SD card doesn't support lifetime notification.
Failed to get status	Unexpected error has occurred.

## Specification

	SR-64UXA/TR1	SR-64UX/TE1	SR-32UXA/TR1	SR-32UX/TE1
Package	Single (1 pc)	Bulk (120 pcs)	Single (1 pc)	Bulk (120 pcs)
Capacity	64GB		32GB	
SD card type	SDXC		SDHC	
Interface	UHS-I			
Speed class	Class 10 (SD Speed Class) Class 1 (UHS Speed Class)		Class 10 (SD Speed Class) Class 1 (UHS Speed Class)	
Transfer rate*	Read: Up to 95MB/s Write: Up to 50MB/s			

\* The Transfer Rate varies depending on the measurement conditions. This data is measured under Sony's standard conditions and not guaranteed.
